B. Providers

B1. Key terms

This section explains key terms you'll see in our *Provider and Pharmacy Directory*.

- **Providers** are health care professionals and support providers such as doctors, nurses, pharmacists, therapists, and other people who provide care and services. **Services** include medical care, supplies, prescription drugs, equipment and other services.
  - The term providers also includes facilities such as hospitals, clinics, and other places that provide medical services, medical equipment, and support services.
  - Providers that are a part of MFC-DC's network are called network providers.
- **Network providers** are the providers that have contracted with us to provide services to enrollees in MFC-DC. The providers in our network will bill us directly for care they give you. When you see a network provider, you will pay nothing for covered services.
- **A Primary Care Provider** (PCP) is a physician, nurse practitioner or physician assistant who gives you routine health care. Your PCP will keep your medical records and get to know your health needs over time. Your PCP will also give you a **referral** if you need to see a specialist or other provider.
