

CONSENT TO SHARE SUBSTANCE USE DISORDER INFORMATION: 3-PART LEARNING SERIES

Did you know there's now an easier way to share clinical and behavioral health data to coordinate care?

A new consent management solution released by CRISP DC and the Department of Health Care Finance in July 2022 enables the compliant electronic exchange of behavioral health information, including substance use disorder (SUD) data protected by 42 CFR Part II. With patient consent, the tool allows data sharing with treating providers via the District of Columbia Health Information Exchange (DC HIE).

Want to learn more? Join our midday webinar series on **August 4 and 12** where we will discuss why consent management is important, how to talk to your patients about consent, and the benefits the consent tool provides. A local medical practice will also share how it used the tool and lessons learned.

Have questions? Attend our office hours on August 30 where you can bring your questions and ask for assistance.

Want more help? HMA coaches will meet separately with you or your team to help you integrate the consent management tool into your practice workflow. Submit your request for technical assistance at www.integratedcaredc.com/signup-form. For general questions, email support@integratedcaredc.com. This series is pending approval for continuing education credits.

THE BASICS

August 4, 2022 | 1-2 pm EDT | [Register Here!](#)

Did you know the CRISP DC HIE's new consent tool makes it easier to get the health information you need to care for your patients with SUD? Join this discussion about the importance of consent management, how to talk with your patients about consent, and the basics of 42 CFR Part 2. We'll also share myth-busting facts, use cases, and FAQs.

A PROVIDER'S EXPERIENCE

August 12, 2022 | 12-1 pm EDT | [Register Here!](#)

DC-based **Medical Home Development Group**, which successfully piloted CRISP DC HIE's consent management tool, will discuss how it used the tool in its workflow and lessons learned. CRISP DC will also join the session to highlight key features and benefits of the consent management tool.

OFFICE HOURS

August 30, 2022 | 1-2 pm EDT | [Register Here!](#)

We invite DC Primary Care and Behavioral Health providers, practice administrators, and care managers to drop in with questions or technical assistance requests. We will also answer any questions.
